A HUGE CANTEEN FOR 'ALL
HANDS' MEETINGS

A VALUED CLIENT SINCE
2010

WHAT'S THE STORY...

Clarify help enterprise technology and professional services organisation's engage in complex, high value deals to achieve significant growth.

In such a competitive marketplace, Clarify need their workplace to promote and retain their teams energy. Particular focus was placed on creating bright and colourful 'Activity based working' areas as well as places to relax and recharge.

The workplace was acquired with a previous 'Fit-Out' still in place. It was certainly not 'Clarify' having a highly cellular layout and dark dated wood. We stripped it back, leaving the suitable built rooms as well as main field carpet to ensure we could use the budget to best effect.

It was a pleasure working with the SLT of Clarify again. They were the same vibrant and focused team we worked with originally back in 2010 when we created their very first workplace.

We look forward to continuing to support their growth and development in years to come
